Fundada em março de 2001, na cidade de São Marcos (RS), a Metal C iniciou sua trajetória com a fabricação terceirizada de peças metálicas, atendendo diferentes segmentos da indústria. Ao longo dos anos, a empresa evoluiu seu mix de produtos e, em 2005, passou a desenvolver sua própria linha de peças e acessórios para implementos rodoviários, identificando um mercado em plena expansão.

A busca constante por qualidade, tecnologia e inovação impulsionou o crescimento da Metal C, ampliando seu portfólio, sua capacidade produtiva e sua atuação em todo o Brasil. Com investimentos contínuos em estrutura, tecnologia e processos, a empresa expandiu seu parque fabril, diversificou suas linhas — incluindo suspensão, basculantes e carrocerias metálicas — e consolidou sua presença tanto no mercado de reposição quanto junto a montadoras de implementos rodoviários.

Em 2026, ao celebrar 25 anos de história, a Metal C se orgulha de ser uma marca sólida, reconhecida pela confiabilidade de seus produtos e pelo compromisso com a qualidade, atendendo clientes no Brasil e na América Latina. Uma trajetória construída com trabalho, evolução constante e foco no futuro.
